

# No more battery trouble!!

## With World Class & Original evaluation technology.

### ■ Patented Technology

**US Patent:US6,369,577 B1    Europe Patent:1314990**  
**Taiwan Patent:165571        China Patent:200810006984.9**

### ■ Built-in Printer

### ■ Speedy [ Test result is given in just in a few seconds ]

### ■ JIS,SAE,DIN,EN,IEC available

### ■ Multi languages

DIGITAL BATTERY & SYSTEM TESTER

# DSR77

Replaceable clamp cable

Easy to replace the clamp cable.  
(Sold separately)

DSR77 checks both health and charging rate that cannot be reached with traditional ways. More trust from customer for quick and accurate evaluation of battery to prevent battery troubles on the road. Also you can recommend time to replace battery more theoretically.

Measurable item/Mode	12V Lead-acid battery test / 12V&24V Cranking / Charging system test
Measurable range of battery	40~200CCA ( JIS / SAE )
Measurable standard of battery	JIS / SAE / DIN / EN / IEC
Measurable minimum voltage	1.5V
Measurable range of voltage	1.5V~30V
Display	LCD , 16letters × 2lines
Printer	Built-in (Thermal printer)
Print paper	30m roll paper
Cable	180cm
Languages	English , Japanese , Korean , Chinese
Date	Date & Clock
Test counter	Available
Dimensions	L251 × W130 × H64 (mm)
Weight	850 g
